October 9, 1998 ans 10/14

Dear Harold,

~~I am so sorry to hear about your recent medical and doctor problems.~~

I am so sorry to hear about your recent health and doctor problems. I just automatically turned 70 and along the way have learned that one's health problems do not compound until one starts to "see doctors!!

It is amazing that you can crank out the thousands of words you do daily. When I was a caregiver for my late brother, I learned a lot about the medics. At some point, the patient becomes irrevalent to the case!! pills become the answer and when they do not work, then the opposite pills are prescribed!! some of those rascals cost $22 each and had no medical value except to pad the doctor's pocket. Once when my brother tumbled out of his chair and hurt himself badly, the doctor in a telecon said to tie him in the chair.

said to tie him in the chair!!

sorry about the lousy typing, but, cards are not meant for typewriters.!'

Best of everything to you and Lil,

Paul H.

We both need to see another doctor.

The very best,

Paul H.
